## Helping Students in Need at Loch Raven High School

### The Holiday Projects in 2017: can you adopt a family?

Our goal this year is to help 40 families in need. Last year we were able to help 34 families.

We are asking Network volunteers to consider adopting a student and their family for the holidays. Volunteers can also partner with other families or friends to adopt a Loch Raven family.

During the first few weeks of school, Caryn Putschat, the social worker, identified students in great need, and more will certainly follow.

If you would like to help in any way, please fill out the form below and send it to Jan Bahner (janbahner@gmail.com). **You will receive the family requests and instructions by Nov. 18, but probably earlier.**

To give the school staff time for distribution, we need **all items purchased, wrapped, and delivered to either Laurie or Chris by December 9.**

Thank you!

Please let us know if you have any special requests or interests that might be matched with particular students (i.e. arts, sports, popular culture, like to shop for boys or girls, etc.) We might not be able to address this but we will try!
